

# Langley Research Center Safety Alert

SA-05-92

Date: April 22, 1992

TO: Distribution  
FROM: 429/Head, Risk Management Branch, SSQRD  
Subject: Material Safety Data Sheet (MSDS) Update 92-1

MSDSs are usually obtained as a part of the acquisition process and are required to be maintained in facilities. Manufacturers frequently send updates to these MSDSs to notify customers of changes in their product. The following is a list of MSDSs received and for which no "L" numbers or other identifying data exists to track the exact location and user. If you need a copy of these, contact Industrial Hygiene, R. Johnston, at Extension 43208.

<u>Company</u>	<u>Product</u>	<u>Comment</u>
OI-NEG TV Products, Inc., Toledo, Ohio	GR-650F	Glass Resin Flakes (Methylpolysiloxane)
