

LANGLEY RESEARCH CENTER

SA-05-88

DATE: May 27, 1988

TO: All Employees

FROM: 429/Safety Manager, Head, Safety Engineering Branch,
SSQRD

SUBJECT: Vehicle Traffic Control, Ames Road

The Center is again experiencing a number of near accidents on Ames Road as a result of vehicles stopping or standing for car pool passengers and delivery operations. Currently vehicle traffic regulations do not permit the stopping or standing of vehicles along this main artery. Appropriate traffic control signs have been posted.

Strict adherence by all employees is essential to preclude the potential of a tragic accident. Employees are reminded that failure to comply with traffic regulations can result in the loss of driving privileges on the Center. Your cooperation is essential.
