

## **SAFETY AWARENESS TRAINING**

The following safety training classes are available to be presented for you at your safety meetings.

- Confined Spaces (permit required)
- Confined Space Awareness
- Personal Protective Equipment (PPE)
- Ergonomics (Office or Industrial)
- Material Safety Data Sheets (MSDS)
- Hand Safety
- Heat Stress
- Cryogenics
- Chemical Safety (Chemical Refresher)
- General Office Safety
- Back Safety
- Lockout/Tagout

If you would like to setup a class, contact your supervisor and he can schedule by contacting Roger Johnston at 43208 or Carter Ficklen at 43205.

## **NASA SAFETY TRAINING CENTER**

The NASA Safety Training Center (NSTC) was established in May 1991 by NASA Headquarters Safety and Risk Management Division to provide up-to-date, high quality, NASA-specific training on location to NASA Centers, or simultaneously to multiple Centers over the Video Teleconferencing System (ViTS). Since that time, this team has been actively developing and presenting courses to meet NASA needs.

The NSTC Training Coordinator for LaRC is Mr. Troy Middleton, who may be contacted at extension 46948.
